

Promotion Information

Overview

This document explains how to work your way up the ranks. All of the requirements and advice for being promoted are below.

Head Operator → Shift Leader

Meet the following requirements to become a Shift Leader.

- Earn 250 skill
- Regularly play the game
- Display professionalism, respect for others, and the ability to effectively handle situations at the car wash
- Work at Washiez for a minimum of 2 weeks

Once you meet the requirements, you are more likely to be promoted through the *recommendation process*.

In the *recommendation process*, Corporate Team members will be at the car wash throughout the week to promote Head Operators who are qualified to become a Shift Leader.

Asking for a promotion, which is called hinting, is not allowed.

Approaching a member of the Corporate Team and hinting will reduce your chance of being promoted.

Promotional Batches

Once you are above the rank of Shift Leader, hard working members of the Supervision Team and Management Team can be promoted through a promotional batch.

Anyone who is in the Supervision Team and Management Team can be promoted, not just those who are in the Discord server. Keep working hard to randomly receive a promotion.

We announce the results of each promotional batch on our Discord server every week.

Rank Categories

Ranks are classified by category. Visit the [Rank Descriptions](#) document to learn more.

Questions

We are happy to help. Open a ticket on the Discord or ask a higher rank at the car wash if you're confused.
