

Department Guide

Department Responsibilities and Members

INTRODUCTION:

As some of you may be confused about the departments that exist at Kohau, this document will hopefully give you a better understanding of our departments. Within this document, we have described the function of every department and given the department contacts if you ever have a concern that needs addressing.

JOINING A DEPARTMENT:

We have two main departments, Staffing and Public Relations, consisting of Board of Executives+. Each board department manages a sub-department. These sub-departments, Recruitment and Social Outreach, involve General Management members in assisting the department members with responsibilities and preparing these High Ranks for a potential promotion to the Board of Executives rank after they have proven they have the skills and work ethic they need to succeed in a main department.

The process of joining a sub-department, and eventually, a main department starts at the Manager rank. Managers have the opportunity to try tasks in both sub-departments, observing what it's like to be a contributing member. They'll then choose a department track: Recruitment → Staffing or Social Outreach → Public Relations. This will allow Staffing to select worthy Managers out of either pool for promotion to General Management and entry to the specific sub-department. General Management members who have completed excellent quality work in their sub-department and show potential as a leader may then be selected for an open Board of Executives position.

Finally, the Moderation Department consists of Executives who have stepped up to moderate the Discord server. Applications are released for eligible Executives in good standing whenever there exists a need for additional Discord Moderators.

STAFFING DEPARTMENT:

The Staffing Department is one of the main departments at Kohaú. Individuals in this department check activity, handle inactivity notices, promote, check appeals, and decide consequences. You can find the members of this department below.
