## 3. Command Usage Guidelines

Leadership members have access to moderation commands and Basic Admin Essentials (BAE) tools. These must be used **responsibly** and **professionally**.

### 3.1. REQUIRED RULE — 5 Letter Minimum

When using moderation commands on a player (e.g., `:bring`, `:fly`, `!clearcuff`), you **must use at least 5 letters** of their username to avoid affecting the wrong player due to duplicates.

Example:

- Correct: `:bring superm`
- Incorrect: `:bring sup`

### 3.2. Basic Admin Essentials Commands (BAE)

The following commands **must NOT be abused**:

- `:fly` — Never use on guests; only for moderation purposes.
- `:bring` — Only for investigations or moderation.
- `:speed` — Only for self-moderation or emergency response.
- `:m` (message) — May not be used.
- `:tp` — Only when necessary.

### 3.3. Lively Kingdom Custom Commands

- **!clearcuff** — Clears handcuffs off a user. Use this when someone is wrongly cuffed or stuck.

Misuse of any command may result in discipline.
