

# Promotion Information

## Overview

- This document explains how to make your way up the ranks. All of the requirements and helpful advice for being promoted are provided below.

## Head Operator → Shift Leader

- Meet the following requirements to become a Shift Leader:
  - Earn 250 skill
  - Regularly play the game
  - Display professionalism, respect for others, and the ability to effectively handle situations at the car wash
  - Work at Washiez for a minimum of 2 weeks
- Once you meet the requirements, you are more likely to be promoted through the *recommendation process*.
- In the *recommendation process*, Corporate Team members will be at the car wash throughout the week to promote Head Operators who are qualified to become a Shift Leader.
- Asking for a promotion, which is called hinting, is not allowed. Approaching a member of the Corporate Team and hinting will reduce your chance of being promoted.

## Promotional Batches

- Once you are above the rank of Shift Leader, hard working members of the Supervision Team and Management Team will be promoted through a promotional batch.
- Anyone who is in the Supervision Team and Management Team can be promoted, not just those who are in the Discord server. Keep working hard to randomly receive a promotion.
- We announce the results of each promotional batch on our Discord server every week.

## Rank Categories

- We categorize our ranks into different groups. Please refer to the document below for clarification on the rank categories.

 Rank Descriptions

# Questions?

Open a ticket on our Discord server or speak to a member of the Management Team or Corporate Team at the car wash. Make sure you read through this document thoroughly before asking for help.
