Rides Department Training Guide

Role Overview
Ride Operators ensure the safety and enjoyment of guests on all attractions.

Safety is the top priority. Operators must follow all safety procedures and respond to emergencies quickly.

Operators are responsible for managing rides efficiently while maintaining a fun and professional atmosphere.

Safety & Certification
All Ride Operators must become certified in ride safety before operating any ride.

Before starting a ride, operators must roleplay checking restraints by saying `-checks-` or something similar.

Ride Procedures & Regen
Each ride has a Regen button to reset the ride if it becomes broken or uncontrollable.

If a ride malfunctions, press Regen immediately and notify your supervisor.

If the ride continues to have issues, escalate further. Your supervisor will contact the appropriate personnel.

Warning System

1. **Verbal Warning** – Explain the issue politely.

2. **Second Warning** – Use `:warn [user] [reason]`. Include a verbal reminder first.

3. **Third Warning** – Use `:warn [user] [reason]`. Escalate to management if behavior continues.

Important: Verbal warnings must always be given between written warnings.

Major Offenses

- Bypassing Permanent Ban

- Spamming 3+ Sentences

- Bypassing Chat Filters

- Major Glitching

- Major Trolling (3+ Kicks)

- Assault to Staff
