Certified Ride Operator 2025 Guide Lively Kingdom and Weezly Bay

INTRODUCTION:

Hi, my name is Y/N and I'll be your trainer today. Please remain attentive throughout the entire lesson.

Please do not go AFK or do any unnecessary chatting. As it distracts others.

YOUR JOB:

As a ride operator, you have the task of operating rides for guests. You will be tasked with ensuring the safety of the ride.

Safety is our number 1 priority, along with guest satisfaction. Meaning, if you're unsure of a policy or you have a safety concern, immediately contact your supervisor.

SAFETY CHECKS

Before starting a ride, you should always check each and every guest's height.

If a guest's height is lower than 42', contact a park security officer for exploiting.

Once you close your gates, you should be able to check restraints.

The only acceptable form of checking restraints would be you saying -Checking Restraints- not anything else.

WARNING SYSTEM

There are going to be times when you encounter a troller, or someone disrupting the game.

The point of trolling is to ruin the experience for other players, or to annoy staff members.

We have implemented a way to deal with these offenders.

You should warn them twice via the :warn command. The command should be :warn (User) (Reason)

You will repeat this twice, trollers no longer need a reminder as they should know the offense.

Once a troller is warned, you may open a Leadership ticket, or contact your supervisor to call a Park Security Officer.

From there, they will be either kicked or banned.

EXAMPLES OF WARNABLE OFFENSES:
Trolling.

Inappropriate Roleplay.

Being Argumentative.

Refusal.

Continual.

Minor Spamming.

Minor Glitching.

There are some guests that should be cuffed automatically! This are due to committing major offenses!

MAJOR OFFENSES:

Major Glitching: This is when someone has glitched into a restricted area, or has glitched more than 2 times.

Exploiting: When a player basically are using cheats to fly, etc.

Circumventing Ban: This means a player has made an alt account to bypass their ban.

Major Trolling: When a player has been warned 4 times and kicked 2 times!

Discrimination

CHECKING HEIGHTS & RESTRAINTS

As Lively Kingdom is constantly checking new ways to have a restraint checker system, we currently have not found one yet.

So, every time you're checking height or a restraint, you'll roleplay it and use -checks-.

RIDE SIGNALS

Each and every ride is different, however the basic ride signals are simple.

On Every attraction you will use the following ride signals, failure to use some signals can result in removal from the rides department.

All Clear or Clear: This just means that you're ready to dispatch the ride, on some rides this could mean that a restraint is locked.

Lock Restraints: This means that the panel operator of the attraction should lock the restraints. Depending on the ride, it could have a number behind it.

Unlock Restraints: This means the panel operator of the attraction should unlock the restraints.

STOP: This means you should stop all operations of the attractions, and contact your Leadership team base and tell them the situation.

YOUR LEADERSHIP TEAM IS HERE FOR YOU!!!!

If you ever have a question, or need help with something don't hesitate to contact command base and have your supervisor come to you.

We are here to make your job better and easier, we ask that you stay calm in the event of an emergency.

ADDITIONAL INFORMATION

Any final questions before I hand you over to our helpers?
